

The philosophy of clothes has lots to do with the philosophy of life. Clothes philosophy teaches one WHY to DRESS WELL. In a few words it is this: "Look good; you'll feel good; you'll make good."

You will be bound to SEE, each week, the "Dandy Dresser" Clothes drawing which Mr. R. F. Outcault, the famous New York artist, will make for us. Also READ our advertisements. They will teach you how to LIVE, DRESS and PROSPER and where to buy your CLOTHES.

THE PROGRESSIVE CITIZEN'S COLUMN

(The Times assumes no responsibility for arti-
cles under this head.)

It has been the policy of four
of the present councilmen to op-
pose whatever the other councilmen
and Mayor want. It has been their
standing policy to block all legisla-
tion they possibly could, and as it re-
quires a majority of the council to
pass an ordinance, they have been
able to defeat any ordinance that
did not suit them. These same four
councilmen are tearing their shirts,
so to speak, for the candidates on the
Municipal Ticket. A few days ago,
the Municipal Advocate, which has
no Daddy but has two or three old
grayheaded Grand-daddies, contained
a two-column article by these same
four aldermen boosting the Municipal
candidates Hagler, Reeves, Walsh
and Schafnutt, and we suppose they
know what will be the policies of
these men, if elected, otherwise,
they would not be for them so strong.
It has been the policy of this gang to
be against something instead of for
something. Their vote in City Coun-
cil will show it. They have always
voted against consolidating the water
and light system, while Loutzenhiser,
Lipe, Jeffries and Vaughn have al-
ways voted for it. They have always
been against reducing the salary of
John C. Green, while Loutzenhiser,
Lipe, Vaughn and Jeffries have been
for it. They have stood square
against reducing the number of em-
ployees in the light and water plants,
while Loutzenhiser, Vaughn, Lipe
and Jeffries have been for it. They
have been and still are in favor of
paying Green \$125 a month and Chas.
Patterson \$65 per month, while Lout-
zenhiser, Vaughn, Lipe and Jeffries
are in favor of putting one man in
charge of both places at \$100 a
month. They are in favor of re-
taining at all hazards John C. Green
at the head of your city's biggest
concern, while Loutzenhiser, Lipe,
Vaughn and Jeffries are not married
to any man, and believe that the wel-
fare of the city should come first—
that the light plant should be in the
hands of a competent and efficient
business man who can put \$1000 a
month in the city treasury from the
income of this plant. This can be
done, but is it being done under the
present management? The city needs
this money and let's have it. Be-
sides bonded indebtedness, the city
owes nearly \$11,000 on open account
for supplies.

Section 1 of Ordinance 217, provid-
es that the Committee on finance
shall exercise a general supervision
and control over the finances of the
city and shall audit the account of
several city officers Loutzenhiser,
Lipe and Brown compose this com-
mittee.

A few weeks ago it was the desire
of the citizens of the town to have an
audit of the city's books. Loutzen-
hiser and Lipe laid off from their
work and begun the audit as was
their duty under the law, but Brown
under the advice of Tom Steele and
Walsh refused to assist Loutzenhiser
and Lipe in the audit although he
was sent for and requested a number
of times to do so. Under the state
law it is a misdemeanor for an official
to refuse to do his duty, but
Brown refused and the council was
compelled to employ and auditor to
do this work, and he charged you
tax-payers \$10 a day and was 12 days
making the audit. You will have
this to pay too. You might have had
the same audit for nothing had it not
been for the wishes and advice of
some of the Municipal ticket's sup-
porters. Voters, elect men to the
council who will lose sight of personal
interest and who will look to the
city's interest. Let's have a change.

Last Tuesday night was regular
council meeting night, and there is a
penalty on any councilman refusing
to attend, but neither Walsh, Brown,
Dusenbury or Farrow was there. Why
did they stay away? This was the
last meeting night before election,
and were they afraid they would be
put on record? Were they afraid to
again vote against consolidating the
water and light systems? We would
like for them to explain through the
column of their illegitimate child,
the new-born Advocate, why they
were not there. Gentlemen you are
the people's servants and they are
entitled to know why you are laying
out and not looking after their inter-
ests. 2t

COPELAND'S REPLY

The Advocate has seen fit to
bring my name into the present
political campaign, and very un-
justly so. Personally I am not
seeking any job or political in-
fluence, I want the good will of
every citizen in town and shall
expect to conduct myself in such
a manner as to merit this, hence
I feel it a duty to reply to the
attacks made on me.

The Advocate says in part,
that two of the aldermen ex-
amined and found a continuous
stream of water flowing into our
plant for which the City was
getting us pay, that I broke the
seal on the meter and used a kind
of oil that would allow the water
to run through without register-
ing; also that I read my own
meter. In reply to the above I
shall give the public a true state-
ment of the matter.

There was a time when we had
no meter on our line, but during
such time the valve on this line
was kept locked by the water
superintendent and the only way
we could get any water was to
have him come and turn it on.
Whenever this was done he
charged us so much per hour un-
til he was notified to come and
shut it off—and he certainly
charged a plenty. If there was
ever a seal on our meter I do not
know it, nor is there one on any
water meter that I know of,
placed there by the City—nor is
there any oil that I know of that
will let water by a meter with-
out registering, and if one of the
councilmen or any one else has
discovered this, he is a dangerous
man and should certainly not be
allowed to serve in any public
capacity. If I ever read our
meter at all it was only to verify
the reading given me by the
city—think I have this right.
Any statements made contrary
to the above are absolutely un-
true so far as I am concerned.

We are no longer a Public
Corporation and have no special
privileges to ask—and all we
want is to be allowed to live
peaceable citizens, and we stand
ready to assist at all times in
making Monett's public utilities
a success. In my humble opinion
if all this dirty politics, and
personal differences were cut
out and the men who are elected
get down to business and place
business men at the helm, we
will have a flourishing little city
so far as our Water & Light
plants are concerned.

I go into print very reluctantly,
but trust this statement will set
every unprejudiced citizen right
in so far as I am personally con-
cerned.

C. W. COPELAND.

I hereby certify that the above
statement with reference to the
water line and meter is correct.
